OBSERVATIONAL SCIENCE

“Scientific Method”

The use of observable, repeatable experiments in a controlled environment to discover patterns of recurring behavior in the present physical universe.

HISTORICAL SCIENCE

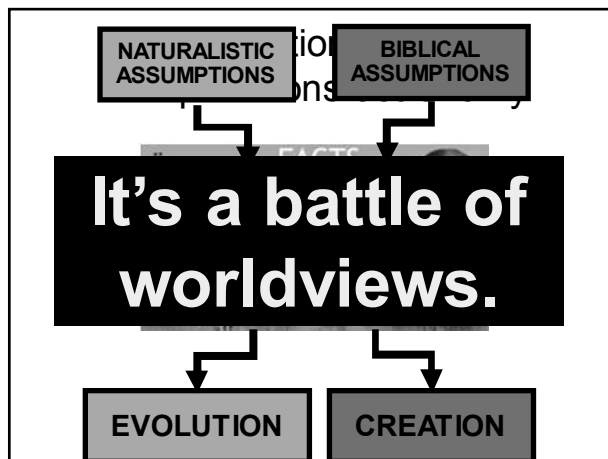

“Legal-Historical Method”

The use of reliable, eyewitness testimony (if available) and circumstantial evidence to determine the cause(s) of some past, unobservable, singular event.

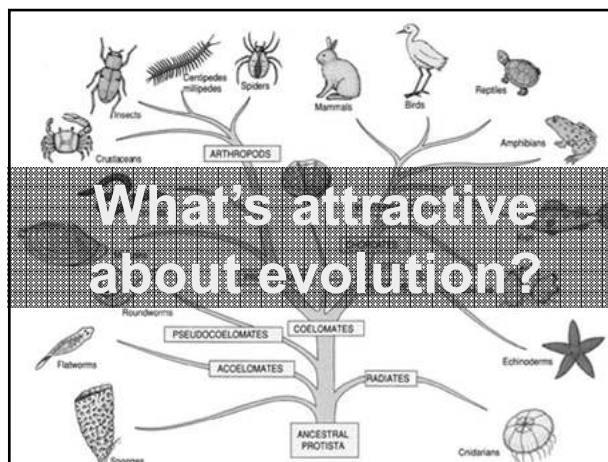

Too many people think it's a battle of sorting out **DIFFERENT** evidences

1 Peter 3:15

But sanctify Christ as Lord in your hearts, always being ready to make a defense to everyone who asks you to give an account for the hope that is in you, yet with gentleness and reverence.

We no longer feel ourselves to be guests in someone else's home and therefore obliged to make our behaviour conform with a set of pre-existing cosmic rules. It is our creation now. We make the rules. We establish the parameters of reality. We create the world, and because we do, we no longer have to justify our behavior, for we are now the architects of the universe. We are responsible to nothing outside ourselves, for we are the kingdom, the power, and the glory for ever and ever.

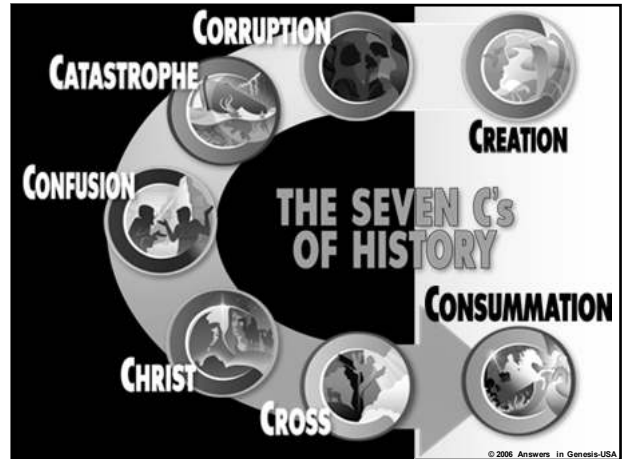

Jeremy Rifkin. *Algeny*. New York, Viking Press, 1983. p. 244.

It becomes clear now that the whole justification of Jesus' life and death is predicated on the existence of Adam and the forbidden fruit he and Eve ate.

Without the original sin, who needs to be redeemed?

Without Adam's fall into a life of constant sin terminated by death, what purpose is there to Christianity? None.

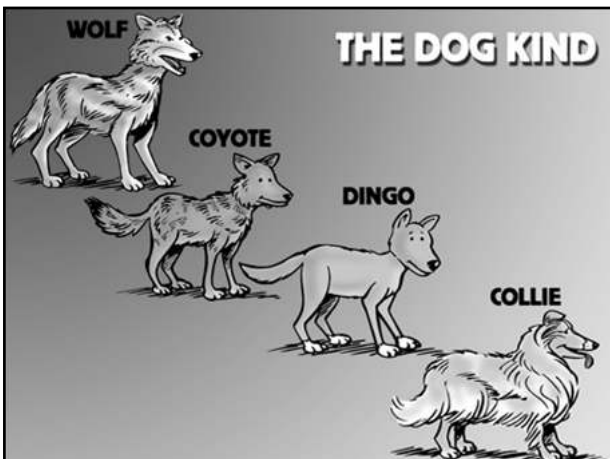

- G. Richard Bozarth, "The Meaning of Evolution."

Natural selection is a **FACT**.

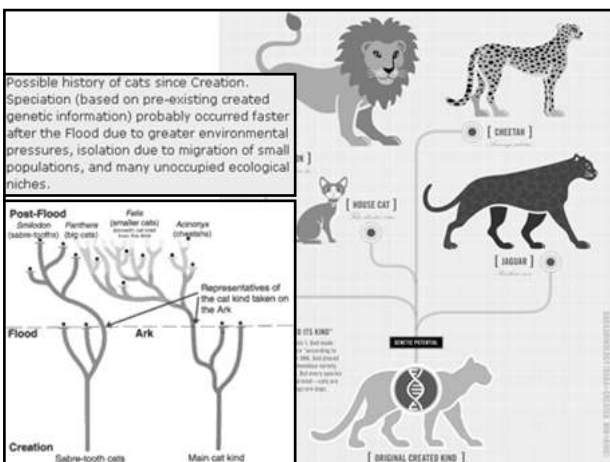

But natural selection is **NOT** evolution.

And natural selection is a **CONSERVATIVE**, not a creative, process.

The origin of the domestic dog from wolves has been established ... we examined the mitochondrial DNA (mtDNA) sequence variation among 654 domestic dogs representing all major dog populations worldwide ... suggesting a common origin from a single gene pool for all dog populations.

Savolainen, et.al., 'Genetic Evidence for an East Asian origin of Domestic Dogs,' *Science*, Vol 298:5598, 22 Nov 2002, pp 1610-1613.

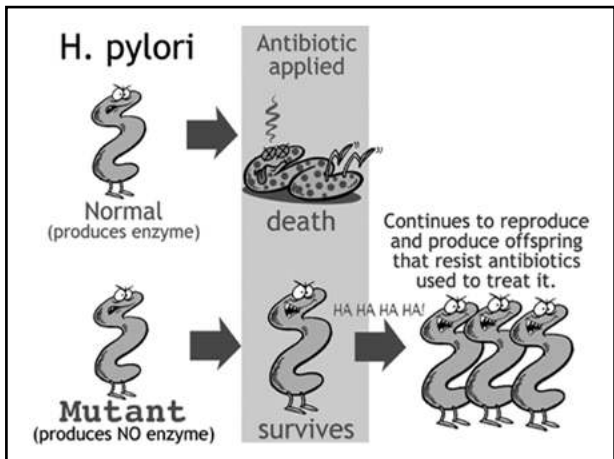

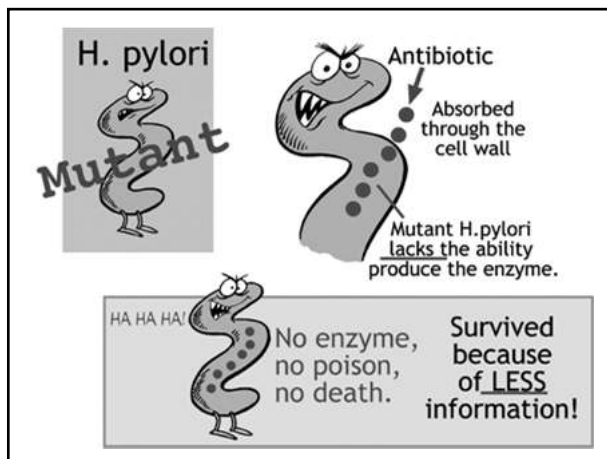

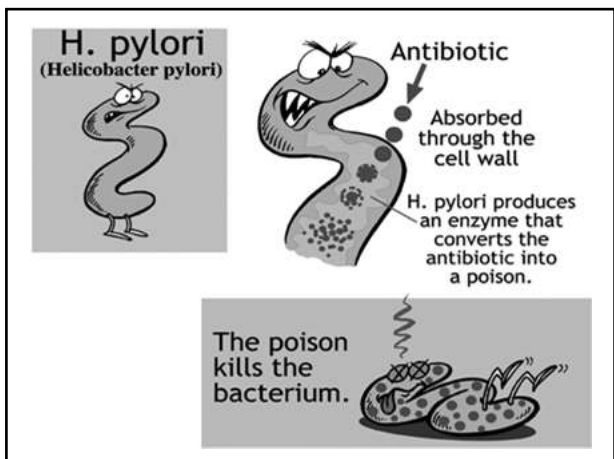

Natural selection can explain the survival of the fittest, but not the arrival of the fittest, which is the real question.

The Supposed Mechanisms of Evolution

1. Natural Selection
2. Random Mutations

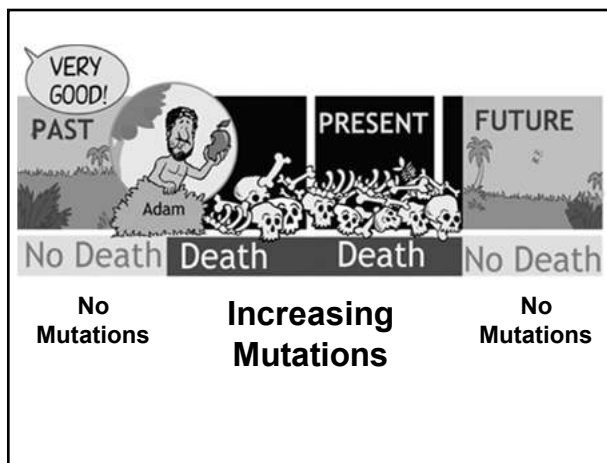

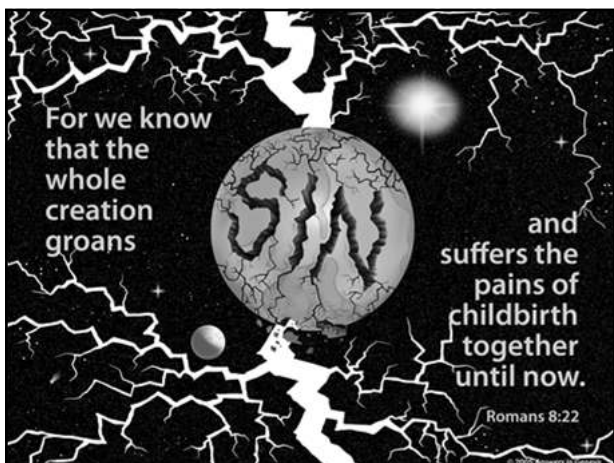

“All point mutations that have been studied on the molecular level turn out to reduce the genetic information and not to increase it.”

Lee Spetner, *Not by Chance: Shattering the Modern Theory of Evolution* (New York: Judaica Press, 1998), p. 138.

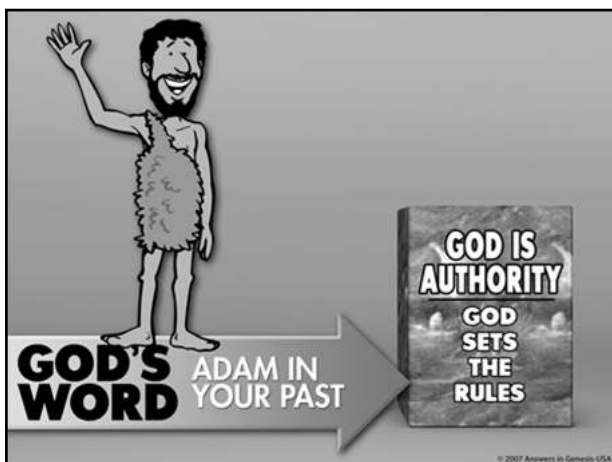

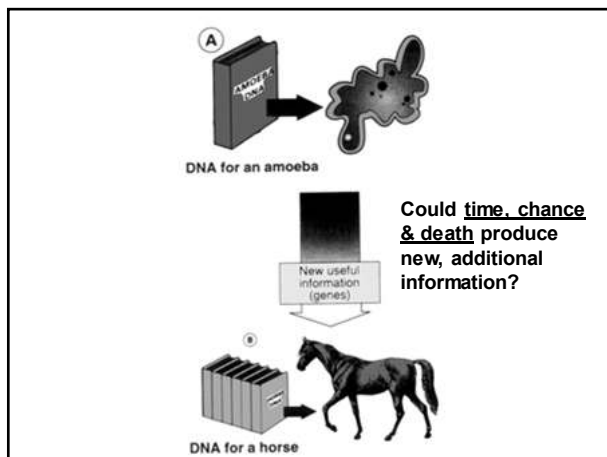

The genetics community now accepts that point mutations in human reproductive cells are in the range of at least **100-300 per individual each generation** (page 34)

3-typo per cell mutation
*15 years old – thousands per mutation
*60 years old – every skin cell has 40,000 mutations not there before

... Now we know that .. Evolution is God's way of creating ..You simply can't any longer say as traditional Christians that death was God's punishment for sin. Death is a necessary aspect of an evolutionary world.. One generation has to die for new generations to come into being. In a way, it is more satisfying ... than to see it as sort of arbitrary punishment that God imposed on our primeval paradise. We can take the Bible seriously without taking it literally.

- Ian Barbour, Scientist,
Recipient of the 1999 Templeton Prize for Progress in Religion.

**Chance origin of the simplest life?
Information does *not* come from matter.**

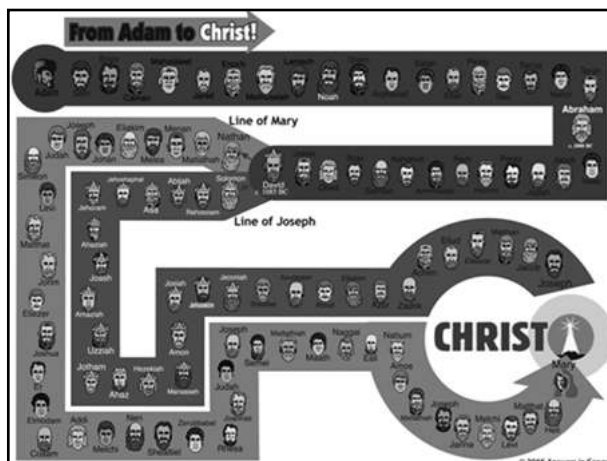

**Amoeba-to-man evolution in past?
No *indisputable* transitional fossils**

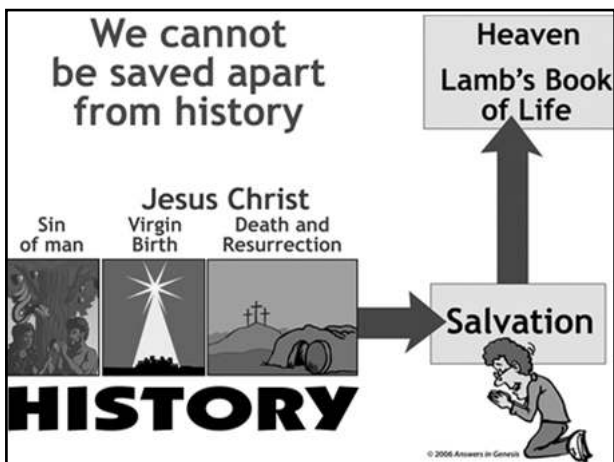

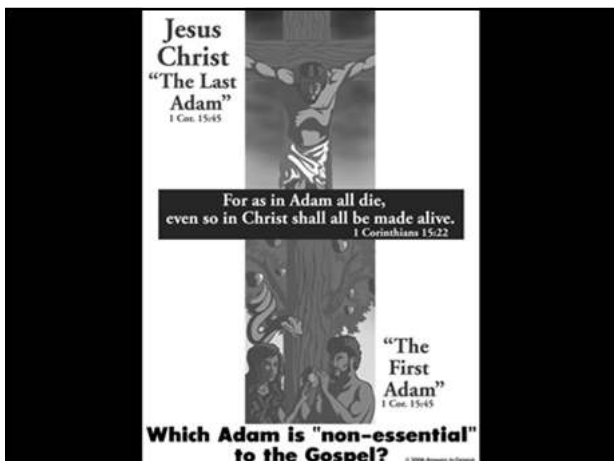

**Natural selection + mutation =
evolution today?
Nature produces no *new* information.**

Natural selection? *FACT!*

Mutations? *FACT!*

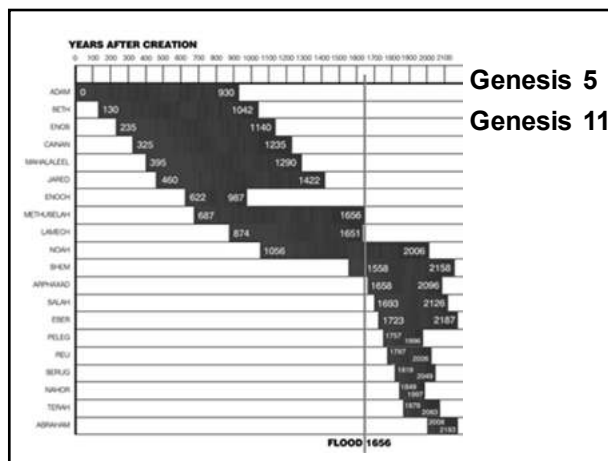

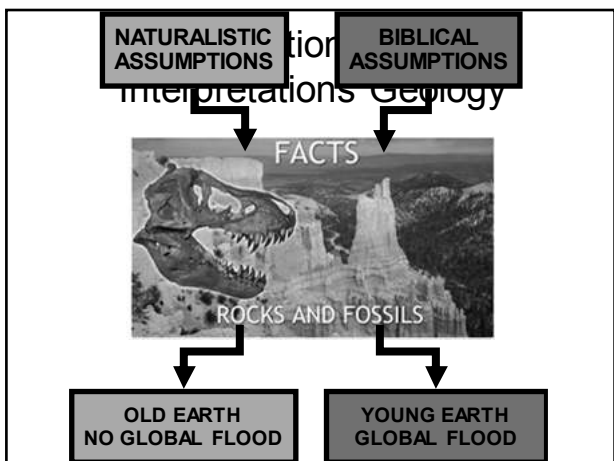

**Natural selection + mutation =
molecule-to-man *BELIEF!***

“From a superficial reading of Genesis 1, the impression would seem to be that the entire creative process took place in six twenty-four-hour days. If this was the true intent of the Hebrew author ... this seems to run counter to modern scientific research, which indicates that the planet Earth was created several billion years ago...”

Gleason Archer, *A Survey Of Old Testament Introduction* (Chicago: Moody, 1985), p. 187.

Estimation for the age of the earth

5 days before Adam	= 5 days
From Adam to Abraham	= ~ 2,000 yrs
From Abraham until today	= ~4,000 yrs
Total	= ~6,000 yrs

Matthew 19:4-6

4 And he answered and said unto them, Have ye not read, that he which made them at the beginning made them male and female,
 5 And said, For this cause shall a man leave father and mother, and shall cleave to his wife: and they twain shall be one flesh?
 6 Wherefore they are no more twain, but one flesh. What therefore God hath joined together, let not man put asunder.

'But from the beginning of creation, God made them male and female.'

Ichthyosaur giving birth...

“Fossilization is a process that can take anything from a few hours to millions of years... The amount of time that it takes for a bone to become completely permineralized is highly variable. If the groundwater is heavily laden with minerals in solution, the process can happen rapidly. Modern bones that fall into mineral springs can become permineralized within a matter of weeks.”

Philip J. Currie & Eva B. Koppelhus, *101 Questions about Dinosaurs* (Mineola, NY: Dover Publications, 1996), p. 11.

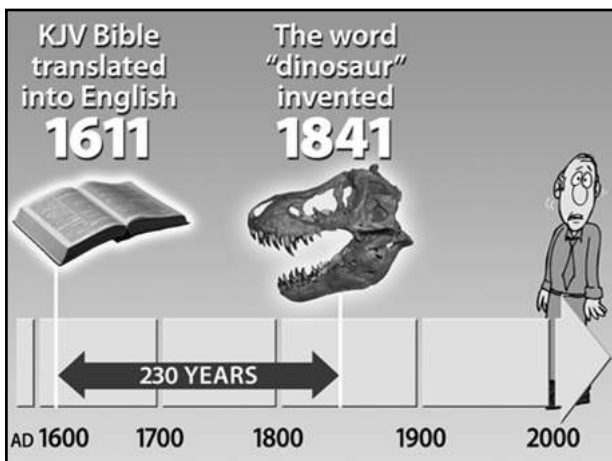

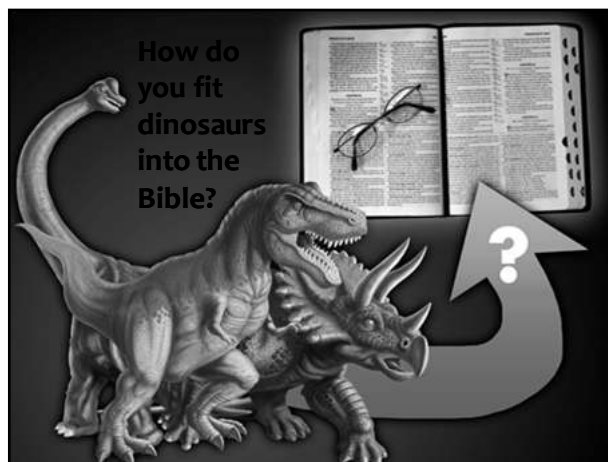

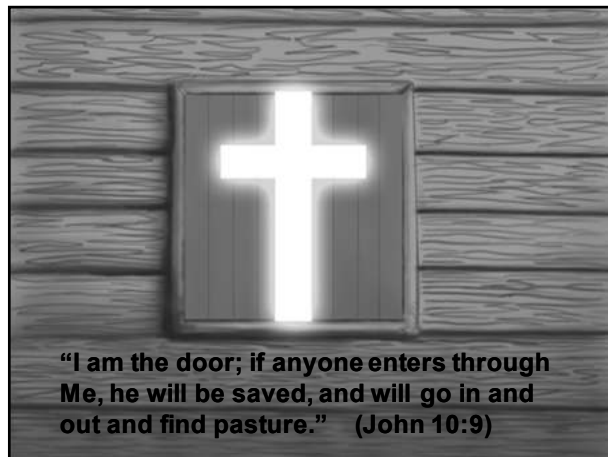

2 Peter 3:5-6

For when they maintain this, it escapes their notice that by the word of God *the* heavens existed long ago and *the* earth was formed out of water and by water, through which the world at that time was destroyed, being flooded with water.

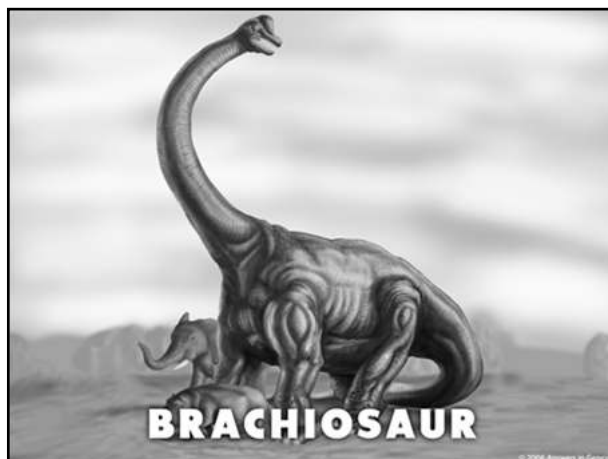

Matthew 24:37-39

For the coming of the Son of Man will be just like the days of Noah. For as in those days before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noah entered the ark, and they did not understand until the flood came and took them all away; so will the coming of the Son of Man be.

Job 40:15

“Look at the behemoth,
which I made along with
you and which feeds on
grass like an ox.

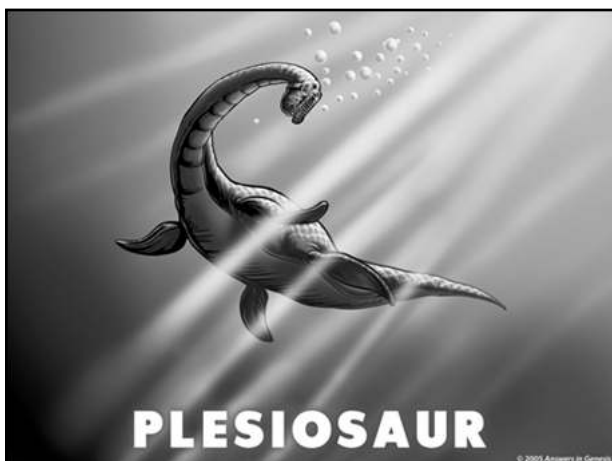

• Isaiah 27:1

–In that day the LORD with his sore and
great and strong sword shall punish
leviathan the piercing serpent, even
leviathan that crooked serpent; and he shall
slay the **dragon** that is in the sea.

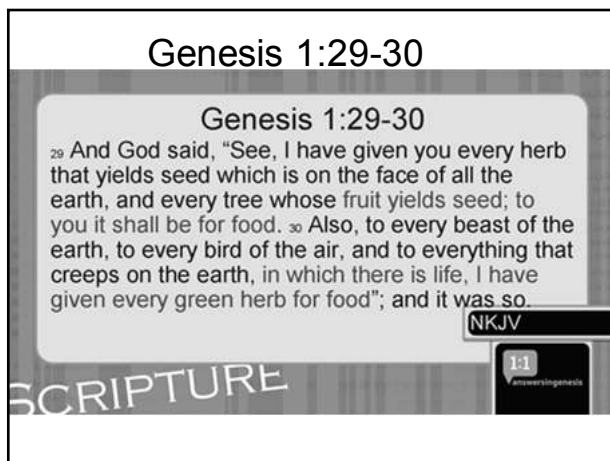

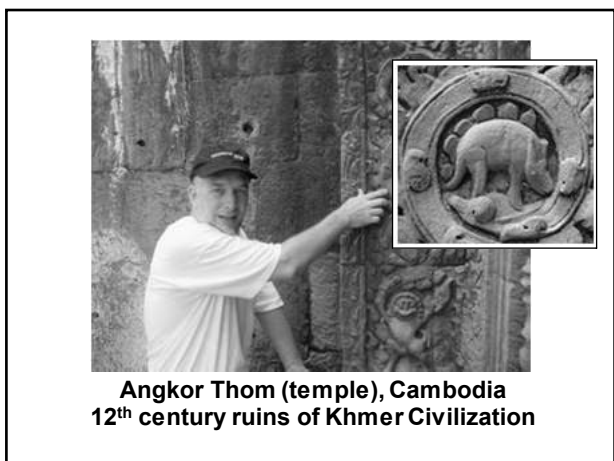

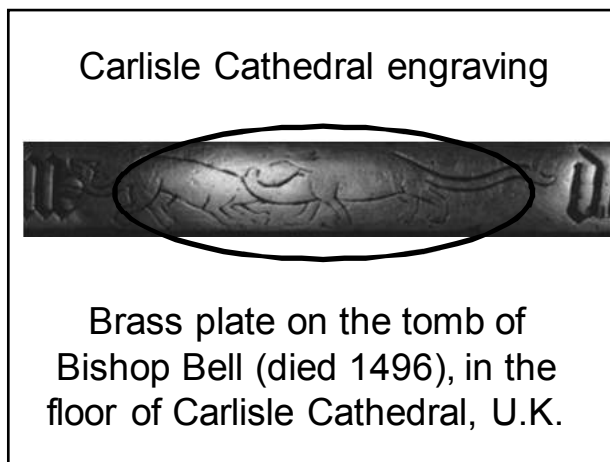

• Psalm 74:13

–Thou didst divide the sea by thy
strength: thou brakest the heads of
the **dragons** in the waters.

Isaiah 30:6

The burden against the beasts of
the South: through a land of trouble
and anguish, from which came the
lioness and lion, the viper and fiery
flying serpent, they will carry their
riches on the backs of young
donkeys, and their treasures on the
humps of camels, to a people who
shall not profit.

Genesis 6:19-20

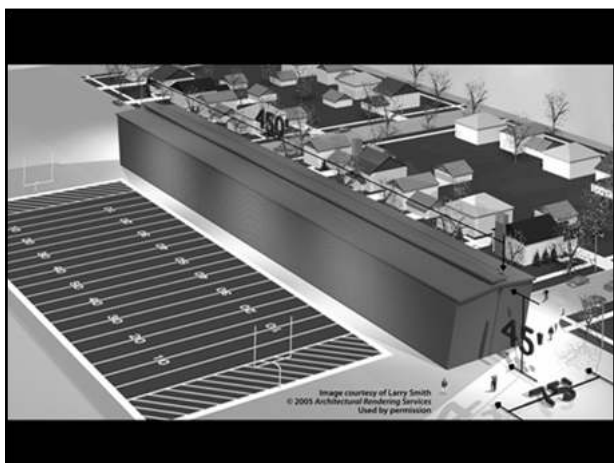

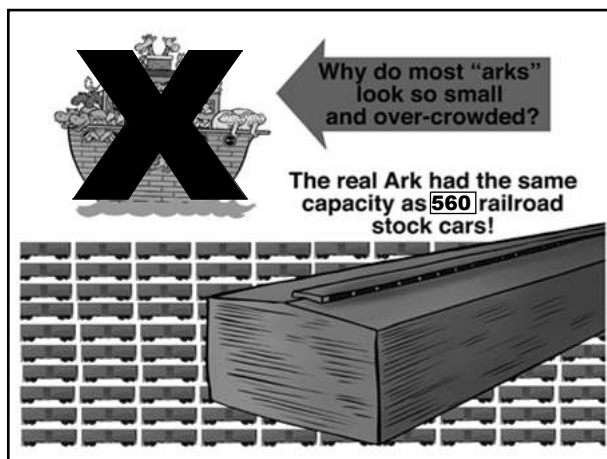

19 “And of every living thing of all flesh, you shall bring two of every kind into the ark, to keep them alive with you; they shall be male and female.

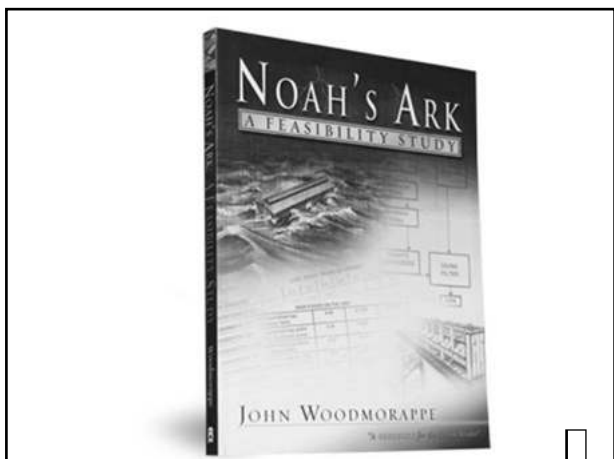

20 “Of the birds after their kind, and of the animals after their kind, of every creeping thing of the ground after its kind, two of every kind shall come to you to keep them alive.

Genesis 6:15b

The length of the ark shall be three hundred cubits, the breadth of it fifty cubits, and the height of it thirty cubits.

DINOSAUR GROWTH SPURTS

Dinosaurs Hatched From Eggs

Dino 'puberty blues' for paleontologists
Dinosaur juveniles and adults wrongly labelled as separate species

by David Catchpoole
Published: 15 June 2010(GMT+10)

Nanotyrannus was a bit like a Tyrannosaurus rex, except it had 17 teeth in its lower jaw, while a T. rex had 12 lower jaw teeth and a less elongated skull.

However, now it seems that Nanotyrannus should never have been identified as a separate species at all. Leading dinosaur paleontologist Dr Jack Horner of Montana State University says that Nanotyrannus was in fact a juvenile T. rex, whose skull changed dramatically as it matured. The transition to adulthood also saw it trade its small, blade-like teeth to make room for a larger set of adult teeth.

The Nanotyrannus mix-up came to light after a dinosaur mid-way between a 'Nanotyrannus' and T. rex was discovered, which had 14 lower jaw teeth.

Horner, with his paleontologist colleague Dr Mark G. ... one of many examples of juvenile and adult dinosaurs having been wrongly labelled as separate species. They suggest that as many as a third of all known dinosaur species will need to be reclassified.^{1,2}

“ This announcement that one-third of dinosaur species 'never existed' follows an earlier analysis of the 1,401 scientific names given to dinosaurs from 1824 to 2004 which showed that about 16% of names were duplicates, and 32% embodied other sorts of errors. ”

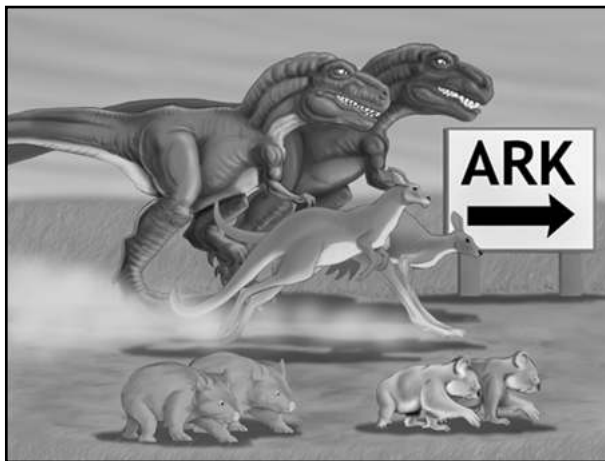

MULTIPLICATION OF DINOSAUR "SPECIES"

Dracorex hogwartsia (juvenile) *Stygimoloch spinifer* (nearly mature)

Pachycephalosaurius wyomingensis (mature)

“In fact, Horner suggests that one-third of all named dinosaur species may never have existed, but are merely different stages in the growth of other known dinosaurs.”

Bye bye 'Hogwarts dinosaur'? New analyses of dinosaur growth may wipe out one-third of species. <http://www.physorg.com/news176132721.html> 30 Oct., 2009 (Jack Horner, Museum of the Rockies and Mark Goodwin, UC Berkeley).

Romans 6:23
For the wages of sin is death

The vast majority of Christians do not behave differently, and they do not think differently because we have never trained them, equipped them, or held them accountable to do so.
- George Barna

2 Cor 10:5
“We demolish arguments and every pretension that sets itself up against the knowledge of God, and we take captive every thought to make it obedient to Christ.”
